

Tolex

The Perfect Finish in Dry Sanding !

Tolex, a breakthrough in both micro-finishing sanding and dry lubrication process technology, results in a system that allows true topcoat sanding without the use of water. Thanks to the blocking effect of the Interface pad, dust and nibs can now be located and removed faster than ever. With speed like dry sanding and finishes like wet, **Tolex** scratches are extremely uniform and shallow, they can be easily removed by light compounding or with our **Buflax** system. If you are concerned with your topcoat finishing but prefer not to wet sand, the perfect system is finally here!

Advantages:

- Achieve Total Dry Sanding Process
- Extremely Uniform Finish
- Speed Up Sanding Time
- Minimum Clogging, Longer Life
- Recommendable also for the finishing of quality furnitures
