

Tolecut TOUCH-UP SYSTEM

DRY

The most advanced DRY system for removing topcoat imperfections

The Tolecut Touch-Up system utilizes state of the art Dry Lube technology to prevent both loading and deep scratches. This dry application allows constant progress monitoring for delicate jobs. Nibs and runs can be eliminated effectively and efficiently.

REMOVE NIBS & RUNS

Tolecut eliminates all types of surface imperfections after painting.

SHALLOW & UNIFORM FINISH

Extremely shallow scratch pattern prevents over-sanding and reduces buffing times.

TOTAL DRY APPLICATION

Less mess with no water. Easy and instant progress monitoring with the wipe of a towel.

STICKON
PSA BACKING

VERSATILE USAGE

Tolecut is available in grades K-800 to K-3000. Maximize efficiency by using the suggested grades.

LARGE NIBS & RUNS

K-800

K-1200

MEDIUM NIBS

K-1500

K-2000

SMALL NIBS

K-2500

K-3000

SAVE TIME + LABOR COST

Tolecut SPEED OF A FASTER GRIT, FINISH OF A FINER GRIT

Tolecut, like all Eagle Hi-Tech products, follows the K-number system. These abrasives **cut faster** than equivalent grade conventional products while delivering the **finish of a finer grade**. This means **less sanding stages** needed before the buffing process.

ELIMINATE IMPERFECTIONS, NOT YOUR PAINT JOB.

SAND RIGHT ON THE NIB
Choose the correct Tolecut grade for your application. Use light even pressure in a circular motion. Any build-up from sanding easily wipes off.

SEE YOUR PROGRESS
The anti-clogging agent allows fine sanding without the mess of water. Use a soft towel to instantly monitor progress.

A SHOWROOM SHINE
Fast cutting while delivering an extremely shallow scratch pattern means no over-sanding and less time to buff.
